*Fast, agile, and effective, the Goldfinch team has been delivering quality glass systems for over 117 years.*

With brothers Greg and Geoff at the helm for more than two decades, GBI brings the consistency and attention to detail unmatched in today's fast paced, commercial construction environment. GBI has the team, tools, and demonstrated track record of on-time quality to drive your architectural vision.

CEO Greg Goldfinch drives a culture of strong communication and cross-team collaboration in all aspects of GBI projects.

The commercial division serves the fenestration industry with a world-class team of estimators, project managers, and CAD-design engineers. This team has successfully supported commercial glass projects from several thousand to several million dollars in size.

**NEW** for 2009, GBI introduces the Aurora Wall officefront system, an integrated, and efficient alternative to the traditional demountable partition.

*For interior and exterior commercial applications, we combine experience with technology to deliver the most demanding architectural details.*

# Aurora Wall

## Officefront System

Sophisticated and efficient...  
yet capable of accommodating  
standard construction rough  
opening tolerances.

Aurora Wall supports a wide range of architectural glass from 1/4 to 1/2 inch thick. The Aurora Wall accommodates swing and sliding door systems in aluminum, and wood with a wide range of hardware styles.
